STUDENTS AT DELUCA VIRTUALLY EXPLORE NASSAU COUNTY MUSEUM OF ART

THURSDAY, FEBRUARY 25, 2021

North Babylon fifth graders in Christina Ceccarelli's class at William E. DeLuca Elementary School went on a virtual field trip with the Nassau County Museum of Art educators this week. In planning the trip, their teacher and Education staff member, Rebecca Hirschwerk, chose to focus on paintings and how they affect children's emotions. Over the course of the lesson, students compared paintings and how each made them feel. In addition, students explored the museum, its history and buildings. "The class really enjoyed it and participated to the max," Ms. Ceccarelli said.
